One Ring Networks Recognized for Excellence in Managed IT Services

Atlanta, Georgia, February 20th, 2018 – One Ring Networks, “A cutting-edge communications provider who pioneers innovation through a comprehensive voice and data portfolio,” announced today that [CRN®](#), a brand of [The Channel Company](#), has named One Ring Networks to its 2018 Managed Service Provider (MSP) 500 list in the Elite 150 category. This annual list recognizes North American solution providers with cutting-edge approaches to delivering managed services. Their offerings help companies navigate the complex and ever-changing landscape of IT, improve operational efficiencies, and maximize their return on IT investments.

In today’s fast-paced business environments, MSPs play an important role in helping companies leverage new technologies without straining their budgets or losing focus on their core business. CRN’s MSP 500 list shines a light on the most forward-thinking and innovative of these key organizations.

The list is divided into three categories: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on-premises and off-premises services; and the Managed Security 100, recognizing MSPs focused primarily on off-premise, cloud-based security services.

“With years of industry expertise and a robust portfolio of communications solutions, our team pioneers innovation,” said John Jenkins, CEO of One Ring Networks. “As we are progressively expanding into new markets, we’re becoming the preferred carrier offering [customizable communications services](#) to simplify the lives of our customers through our reliable, high-speed network.”

“Managed service providers have become integral to the success of businesses everywhere, both large and small,” said Bob Skelley, CEO of The Channel Company. “Capable MSPs enable companies to take their cloud computing to the next level, streamline spending, effectively allocate limited resources and navigate the vast field of available technologies. The companies on CRN’s 2018 MSP 500 list stand out for their innovative services, excellence in adapting to customers’ changing needs and demonstrated ability to help businesses get the most out of their IT investments.”

“As a business that is dedicated to providing the ideal solution, we invest in our customers’ daily operations and commit to the excellence of their future. Our network empowers growth and productivity with a range of customizable services that support your online demands. We make life easy for you by providing all the necessary tools so you can focus on your business,” (John Jenkins, CEO of One Ring Networks).

The MSP500 list will be featured in the February 2018 issue of CRN and online at www.CRN.com/msp500.
